At Eskimo EPOS,
we are passionate
about providing
standout EPOS
and business
solutions

Eskimo EPOS

We supply a quarter of the UK's 550+ Schoolwear retailers with a customer retention rate of over 97%.

Software

Software developed by experts specifically for schoolwear.

Hardware

As technology evolves, our rolling software updates ensure that customer software is never out of date.

eCommerce

Fully integrated and tailored eCommerce that grows with your business.

Support

Full telephone and remote support package. Ongoing training.

"The most beneficial service that Eskimo has supplied is freeing up our time and helping to streamline our business processes. Now with the system at our tills, we can easily click a school or item and see what we have and how many within a few seconds"

Hasan, Bubblegum Schoolwear

Multi store

Our multi store system gives retailers live communication between all of their stores. Real time communication means that retailers are always completely up to date with sales figures and stock levels.

"Eskimo look after our 8 stores and our website. Their multi store offering means we always know exactly where we are within our business and can see at the touch of a button, the sales and stock figures for any of our locations and the 800 plus schools that we supply"

Paul, PMG Schoolwear

Support

Eskimo EPOS Support Team are always there to assist you and explain things in a jargon-free manner.

Unlimited Telephone and Remote Support

Our customers benefit from unlimited telephone and remote support, meaning that they have peace of mind. Should a query arise, we are always on hand to support you.

Ongoing Training

Customers benefit from our ongoing training, allowing them to learn the full capabilities of the software at their own pace.

Rolling Software Updates

As technology evolves, our rolling software updates ensure that your software is never out of date.

Integrated payment systems & software partners

Eskimo Integrated Credit Card Services improve accuracy while speeding up customer processing. Transactions are sent directly to the Pin Pad which is faster and reduces user error.

Our software is further enhanced using various Accountancy, Payment Gateway and even SMS Text Service integrations.

Our Software Partners

"Excellent company, very helpful, easy to use system. We highly recommend Eskimo EPOS as their system is the best performing and has saved us lots of money over our previous Epos supplier"

Shabbir, Angels Uniforms
