Stock Taking with **Eskimo** Mobile Tools

Time consuming stocktakes are a thing of the past with the Eskimo Mobile Tools.

Install the app on your mobile phone and use in conjunction with our very portable Bluetooth barcode scanner if you wish you to scan in the items.

- **Blind stocktaking ensures genuine counted figures are reported by staff**
- **Simply scan or tap a barcode number into the app and then enter the count**
- **Audit your count by location if required**
- **Keep a check on the progress of your stocktake from the stocktaking dashboard**
- **Run a variance report and investigate stock discrepancies before finalising the stocktake**
- **Accept counted figures as your stock figures**
- **Finalise the stock take in the Eskimo Back Office to resume normal use of the system**
